India's Leading Racks & Furniture Manufacturer

# Heavy Duty Racking Systems

Heavy duty pallet rack is the most popular and economic storage system at present. The pallet rack is mainly used together with pallet and the common forklift. It is very safe and convenient, can make full use of warehouse space. Goods are packed on the pallet, then the pallet is picked up from racking by forklift easily and freely. It is widely used in warehouse, supermarket, distribution centers and other logistic places.

# Heavy Duty Rack's Advantages

- Simple structure and operation.
- Very little height space is wasted.
- Direct access to each item, no fifo restrictions.
- Make the best use of available space possible.
- Each level can be used to store a different SKU.

## Our Certifications

**K.K. BASHEER**  
Managing Director
